A BLOCK ON FIRE.

Charlotte, Mich., Has a Costly Blaze and Fatalities.

CHARLOTTE, Mich., June 18.—A fire broke out in the Excelsior block last night. The Jackson and Battle Creek fire departments each sent engines. The building was occupied by Cole & Jones, clothiers; Darien & Murray, boots and shoes; Howard A. Blackman, druggist; Western Union Telegraph office, Central Telephone exchange and several offices. The buildings were owned by Dr. P. D. Paterson and M. Hudson. Loss, nearly \$50,000. Frank Silverwood, a carpenter, who was helping the firemen, fell from the third story and was fatally injured. Clement Higby was also severely injured.

WHAT HAVOC.

The Haymarket Bomb Wrought on Policemen.

CHICAGO, Ill., June 18.—Only eighteen of the sixty-seven police officers wounded at the Haymarket riot have returned to duty. The death of Nels Hanson, at the hospital this week was the seventh death instead of the eighth, as has been generally published. Sixteen are still unable to leave their beds and forty-two in all have not reported for duty.

WHEAT PROSPECTS

Are Good Save in Kansas and Michigan.

TOLEDO, June 18.—C. A. King & Co., during the last three days, have received 1,600 reports from grain dealers and millers, covering almost every important wheat county in six principal wheat states. Prospects are very favorable except in Kansas and Michigan. Missouri has excellent prospects, Illinois nearly as good, while Indiana and Ohio are almost as favorable. Michigan has fair prospects, but the outlook in Kansas is a poor yield, and quality promises to be good. Harvest is in full blast in Kansas and Missouri.

Gladstone at Edinburg.

EDINBURG, June 18.—Gladstone is in fine spirits to-day. He has taken a long drive about the city. He speaks here to-night and again Monday night. The Greenland seal fisheries have been an entire failure.

Vast crowds surrounded a railway station in London, yesterday morning, to witness the departure of Mr. Gladstone on his campaign tour in Scotland. He was accompanied by his wife and son, and was compelled to speak from the car window. His greatest effort will be at Edinburgh, this evening. Most of the Parnellite members of the house of commons have gone to Ireland.

GREAT SLAUGHTER.

A Whole Regiment of Soldiers Killed.

PANAMA, June 18.—A terrible affray occurred at Bogota between the guard of prisons and members of one of the national battalions. One general, several officers and thirty soldiers were killed. It is the outcome of an old grudge between guards and soldiers, without any political significance whatever.

A DOUBLE DEAL.

Murder and Suicide in a Newspaper Office.

ST. LOUIS, June 18.—At 11 o'clock this morning Dr. S. A. Richmond entered the counting room of the *Herald* and fired a revolver at Col. W. K. Strong, manager of the *Herald*, who was seated with his back to the door and unconscious of the doctor's presence. Strong tried to reach the back end of the office, but fell as Richmond fired two more shots and died in five minutes. Richmond went out on the street and killed himself with the same weapon.

WASNT IT COOL.

Tramps Drag Young Such into a Freight Car to Beat and Rob Him.

A young man named Emil Such, a brother-in-law of Henry Bushing, the grocer, was returning from a brief trip into the country via the Grand Rapids railroad track last Tuesday. The trains stop for the Nickel Plate crossing and at the coal bins west of town. Passing a freight train there at dusk Tuesday, Such was seized by three ragged men and pitched bodily into a freight car, the door of which was quickly closed. Here a desperate fight ensued, because Such fought like a tiger for his liberty and his black eyes, battered face and bruised body bear witness to his story. The men overpowered and choked him, then he was robbed of a few dollars and other valuables he had on his person. Such was held a prisoner while the tramps amused themselves drinking bad whiskey and taunting him. Every protest he made was rewarded with a knock down, until before daylight Tuesday morning, when the ruffians opened the car door and shoved him out into the ditch, while the train ran forty miles an hour. Such landed as best he could, some sixty miles north of Fort Wayne, on the Grand Rapids road. He begged his way home, and it will be a chilly day when he monkeys around the railroad again.

S. ELWOOD GROSS,

The Pious Crook, Arrested by Sheriff Nelson at Kansas City.

Sheriff DeGross Nelson again adds new laurels to his crown. At Kansas City yesterday he arrested S. Elwood Gross, a young rascal for whom there has been a diligent search. He telegraphed his catch yesterday, but the information was withheld by his assistants here. If Gross comes without habeas corpus proceedings he will arrive here in charge of Mr. Nelson tonight. It is said he will plead guilty and quickly get himself away from here. It is recalled that he forged a check for \$6.40 on Max Frankenstein, stole clothes from a companion named Schooley and betrayed the confidence of Stewart & Hahn, his employers, as well as a number of excellent church people and personal friends into whose good graces Gross worked himself. This is sufficient ventilation now.

LOCAL LINES.

The uniformed Catholic knights returned from Avilla at 1 o'clock.

The St. Mary's fair at Library hall continues to attract great crowds.

The Kyle opera company will present "La Mascotte" at the Academy to-night. This hot weather it is pleasant to sit through the show.

It is said Agent J. K. McCracken, of the Pennsylvania road here, has tendered his resignation to accept and consummate a contract just awarded him to build 250 miles of a new branch of the Chicago, Rock Island and Pacific railway to run from Kansas City to Saline, Mo.

"There is perhaps no man who cares less for newspaper criticism than A. P. Edgerton, of Fort Wayne, the chairman of the civil service commission. The numerous paragraphs, therefore, floating through the papers in regard to his motives and intentions will have very little effect upon him. If he should become disgusted with his office, as is reported, he will resign it, but it is not likely he will become so, and his resignation should not be expected. Mr. Edgerton is a genial old gentleman, fond of just such life as he meets with at Washington, and wants the office more for this reason than any other. When he tires of Washington life he will go home and not sooner," says the *Richmond Palladium*.

CHOICE BITS.

The News That is Culled for the "Sentinel" Readers.

Goshen wants the congressional convention for the 13th district held there. Capt. John R. Smith, postmaster of Kendallville, is threatening a boycott of the *News*.

The shrinkage of property in Noble county as returned by the assessors at Albion last week is \$55,000.

The Knights of Pythias of Huntington, will dedicate their new hall on Wednesday evening, July 7.

The result of the assessors' work in Lagrange county shows a decrease in the valuation of property of \$800,000.

Theodore Hoffman, at Milltown, had carried a dynamite cartridge in his vest pocket two years. Finally his curiosity to see the contents got the better of his judgment, and he picked it open with a pin, exploding the infernal machine, tearing off the middle and second fingers of one hand.

Yesterday the gymnasium and baths of the Y. M. C. A. association building, at Indianapolis, were permanently closed. This was rendered necessary by the dilapidated condition of the building. In the city of Bombay there is a Y. M. C. A. association of 500 members, with a fine building and doing a good work for the city. This is Indiana and that is India. That is the difference.

The Indiana Sunday School union will begin its twenty-second annual convention in Centenary church at New Albany on the 22d of this month, continuing three days. A reduction in railroad fare may be secured by addressing Chas. H. Conner, secretary, New Albany. Programs, certificates, etc., may be had of the secretary or of Charles D. Meigs, Indianapolis. All schools desiring to send delegates should appoint them, and the annual collection for state work should be taken up.

The Marion water works well has been threatening to go dry for the past year and the people of that city became alarmed. They began a new well but abandoned it. They finally entered into a contract with some Ohio people who agreed to furnish them plenty of water for \$350. After eight days work and a depth of sixty feet, says the *Chronicle*, was reached, a vein of water was struck which proved a veritable gusher. The flow was interrupted and enormous.

The Fletcher & Sharpe bank building at Indianapolis was sold by the receiver this afternoon at public outcry, and was bid in by O. B. Hord on behalf of President Ingalls, of the Big Four; consideration \$55,000, the purchaser assuming \$135,000 held by the Connecticut Mutual Life Insurance company. The building was appraised in excess of \$200,000, and it is not thought the court will approve the figures at which it went to-day, although it is believed Mr. Ingalls will eventually come into its possession.

A number of the leading live stock dealers of the state met at the Grand hotel yesterday afternoon and organized the Central Live Stock insurance company, of Indiana, which proposes to insure against death by disease or accident, with the following officers: President, Hon. A RUSH!

Seizes Both Houses of Congress.

Senator Payne's Seat Seems to Hang Lightly on a Charge of Buckeye Bribery.

A Resolution to Adjourn in the House—The Proceedings in Full.

SENATOR PAYNE.

Ohio Republicans Trying to Oust Him.

WASHINGTON, June 18.—The senate committee on privileges and elections had another meeting this morning to discuss the charge that Senator Payne's seat was secured by bribery, but did not decide whether or not to make an investigation. Congressmen Little and Butterworth were present and addressed the committee in advocacy of an investigation.

Senator Evarts, who is reported to be disinclined to an investigation, was not present, being out of town. Further consideration of the subject was postponed till next Thursday, in order to give Major Butterworth an opportunity to make a statement.

The Ingalls resolution requesting the president to furnish information as to the appointments and removals under the civil service law, was placed before the senate.

Mr. Vance offered an amendment requesting information as to the appointments made within the scope of the civil service act between January 16, 1883, when the act passed and July 15, 1883, when it went into effect. Resolution as amended was agreed to.

The senate yesterday passed numerous bills on the calendar, among them being measures to construct roads to the national cemeteries at Knoxville and Natchez, to grant the Seal rocks to the city of San Francisco, for the transfer of the Baton Rouge barracks to the university of Louisiana, to purchase land for the Indian training school near Salem, Oregon; for a conference at Washington of delegates from the American republics, and for the appointment of an additional secretary of the treasury for one year.

Agreed to. Also the message of the president on the subject of the inauguration of the statue of liberty enlightening the world in New York harbor. Referred to the committee on appropriations.

The Stanton debate was continued by Hepburn, of Iowa, who severely criticised Wheeler's speech upon the late secretary of war and declared he could not tamely submit to have the men who were embalmed in the hearts of their countrymen and whose memory was revered, derided by such as the gentleman from Alabama. He then yielded to Mr. Kelley, who read a letter written by Mr. Stanton to Rev. H. Dyer, November 18, 1862, and declared his single purpose to perform his whole duty to his country.

Mr. Wise, of Virginia, was sorry the gentleman from Georgia, Mr. Wheeler, had given the gentleman from Ohio a chance to fight over again the war days of 1862.

Mr. Wise earnestly endeavored to impress on the majority the propriety and necessity for are habilitation of the navy. There is no truth in the statement that orders were given for the vigorous enforcement of the treaty of 1818, respecting fisheries.

Mr. Anderson, of Kansas, offered a resolution providing for the final ad-

journalment of congress at noon on Saturday, July 3d. Referred to the committee on ways and means.

Mr. O'Neil, from the committee on labor, reported a bill granting leaves of absence to em, loyes of the United States navy yards. To the house calendar.

Akron Over a Lake.

A FEW POINTERS.

Judge Elliott Hands Them to the Council in the Coombs Damage Case.

In deciding the case of J. M. Coombs vs. the city, Judge Elliott holds: "In actions against municipal corporations for injuries resulting from the negligent construction or maintenance of sewers must show that he was free from contributory negligence. Where a municipal corporation constructs a sewer it is bound to use ordinary care and skill, and it is not necessary that it should be averred that the corporate authorities had notices or defects caused by a want of care and skill in doing the work. Where a sewer is constructed with care and skill the municipal corporation is liable for injuries for negligently failing to keep it in repair, and where it is suffered to remain out of repair for such a length of time as that it was the duty of the corporate authorities to take notice of its condition, the law will charge the corporate officers with notice. A complaint which charges that a sewer was suffered to remain out of repair for two years prior to the injury done to the plaintiff's property, such an averment is sufficient to charge the corporation with notice.

The right of the public in a street is not lost by the occupancy of the land by a canal company and the city has a right to construct a sewer under the canal. A municipal corporation which makes use of private property for the purpose of constructing a sewer and in order to obtain the privilege of using the property submits to the demand of the owner to construct the sewer according to plans and specifications prepared by him is liable for negligence in constructing or maintaining the sewer. If a municipal corporation by its system of constructing sewers renders an outlet necessary, it must provide one. A municipal corporation is liable to one, who for his private benefit, connects his premises with a sewer constructed by the corporation for injuries resulting from the negligent construction or maintenance of the sewer. It is exclusively a question for the court to determine whether a witness is qualified to testify as an expert."

Death of J. McNutt Smith.

INSECT SMELL.

In an extensive series of experiments by Prof. Graber, insects and many other invertebrates perceived odors much more quickly and acutely than the vertebrates tested (birds and reptiles). The antennae proved to be not the only organs of smell in insects, although these appear to be essential to the perception of some fine odors. In some cases the palpi of the mouth-organs are more sensitive than the antennae, but perception of smell through the stigmata or respiratory organs is not rapid nor important.

A MURDERER under sentence of death had a number of influential friends who were exerting themselves to secure a respite from the Governor. The Sheriff believed in capital punishment, but he was a charitably-disposed man and had been doing a good deal of running around for his doomed guest. One morning he returned from such a trip and went to the prisoner. "Well," said the man eagerly, "well, what did the Governor say?" "My dear sir, he hasn't said anything yet. He wants time to think." "Good heavens, man! This suspense is terrible," exclaimed the criminal dramatically. "Don't mention it," responded the Sheriff in a cheerful tone, "it ain't anything to what it will be if the Governor doesn't interfere."—*Washington Critic*.

A BLOCK ON FIRE.

Charlotte, Mich., Has a Costly
Blaze and Fatalities.

CHARLOTTE, Mich., June 18.—A fire broke out in the Excelsior block last night. The Jackson and Battle Creek fire departments each sent engines. The building was occupied by Cole & Jones, clothiers; Darius & Murray, boots and shoes; Howard A. Blackman, druggist; Western Union Telegraph office, Central Telephone exchange and several offices. The buildings were owned by Dr. P. D. Paterson and M. Hudson. Loss, nearly \$50,000. Frank Silverwood, a carpenter, who was helping the firemen, fell from the third story and was fatally injured. Clement Higby was also severely injured.

ELGIN, Ill., June 18.—The Bosworth block was partially burned this morning, causing a loss on building of \$3,000 and to occupants of \$20,000. Company F Third Regiment Illinois State troops, occupying the third story, lost their guns, equipments and uniforms.

WHAT HAVOC.

The Haymarket Bomb Wrought
on Policemen.

CHICAGO, Ill., June 18.—Only eighteen of the sixty-seven police officers wounded at the Haymarket riot have returned to duty. The death of Nels Hanson, at the hospital this week was the seventh death instead of the eighth, as has been generally published. Sixteen are still unable to leave their beds and forty-two in all have not reported for duty.

WHEAT PROSPECTS

Are Good Save in Kansas and
Michigan.

TOLDO, June 18.—C. A. King & Co., during the past three days, have received 1,600 reports from grain dealers and millers, covering almost every important wheat county in six principal wheat states. Prospects are very favorable except in Kansas and Michigan. Missouri has excellent prospects, Illinois nearly as good, while Indiana and Ohio are almost as favorable. Michigan has fair prospects, but the outlook in Kansas is a poor yield, and quality promises to be good. Harvest is in full blast in Kansas and Missouri.

Gladstone at Edinburgh.

EDINBURGH, June 18.—Gladstone is in fine spirits to-day. He has taken a long drive about the city. He speaks here to-night and again Monday night. The Greenland seal fisheries have been an entire failure.

Vast crowds surrounded a railway station in London, yesterday morning, to witness the departure of Mr. Gladstone on his campaign tour in Scotland. He was accompanied by his wife and son, and was compelled to speak from the car window. His greatest effort will be at Edinburgh, this evening. Most of the Paraclete members of the house of commons have gone to Ireland.

GREAT SLAUGHTER.

A Whole Regiment of Soldiers
Killed.

PANAMA, June 18.—A terrible affray occurred at Bogota between the guard of prisons and members of one of the national battalions. One general, several officers and thirty soldiers were killed. It is the outcome of an old grudge between guards and soldiers, without any political significance whatever.

A DOUBLE DEAL.

Murder and Suicide in a News-
paper Office.

St. Louis, June 18.—At 11 o'clock this morning Dr. S. A. Richmond entered the counting room of the Herald and fired a revolver at Col. W. K. Strong, manager of the Herald, who was seated with his back to the door and unconscious of the doctor's presence. Strong tried to reach the back end of the office, but fell as Richmond fired two more shots and died in five minutes. Richmond went out on the street and killed himself with the same weapon.

WASN'T IT COOL.

Tramps Drag Young Such into
a Freight Car to Beat and
Rob Him.

A young man named Emil Such, a brother-in-law of Henry Bushing, the grocer, was returning from a brief trip into the country via the Grand Rapids railroad track last Tuesday. The train stopped for the Nickel Plate crossing and at the coal bins west of town. Passing a freight train there at dusk Tuesday, Such was seized by three ragged men and pitched bodily into a freight car, the door of which was quickly closed. Here a desperate fight ensued, because Such fought like a tiger for his liberty and his black eyes, battered face and bruised body bear witness to his story. The men overpowered and choked him, then he was robbed of a few dollars and other valuables he had on his person. Such was held a prisoner while the tramps amused themselves drinking hard whisky and taunting him. Every protest he made was rewarded with a knock down, until before daylight Tuesday morning, when the ruffians opened the car door and shoved him out into the ditch, while the train ran forty miles an hour. Such landed as best he could, some sixty miles north of Fort Wayne, on the Grand Rapids road. He begged his way home, and it will be a chilly day when he monkeys around the railroad again.

S. ELWOOD GROSS.

The Pious Crook, Arrested by
Sheriff Nelson at Kansas
City.

Sheriff DeGross Nelson again adds new laurels to his crown. At Kansas City yesterday he arrested S. Elwood Gross, a young rascal for whom there has been a diligent search. He telegraphed his catch yesterday, but the information was withheld by his assistants here. If Gross comes without habeas corpus proceedings he will arrive here in charge of Mr. Nelson to-night. It is said he will plead guilty and quickly get himself away from here.

It is recalled that he forged a check for \$5.40 on Max Frankenstein, stole clothes from a companion named Schooley and betrayed the confidence of Stewart & Hahn, his employers, as well as a number of excellent church people and personal friends into whose good graces Gross worked himself. This is sufficient ventilation now.

LOCAL TINES.

The uniformed Catholic knights returned from Avilla at 1 o'clock.

The St. Mary's fair at Library hall continues to attract great crowds. The Kyle opera company will present "La Mascotte" at the Academy to-night. This hot weather it is pleasant to sit through the show.

It is said Agent J. K. McCracken, of the Pennsylvania road here, has tendered his resignation to accept and consummate a contract just awarded him to build 250 miles of a new branch of the Chicago, Rock Island and Pacific railway to run from Kansas City to Salina, Mo.

"There is perhaps no man who cares less for newspaper criticism than A. P. Edgerton, of Fort Wayne, the chairman of the civil service commission. The numerous paragraphs, therefore, floating through the papers in regard to his motives and intentions will have very little effect upon him. If he should become disgusted with his office, as is reported, he will resign it, but it is not likely he will become so, and his resignation should not be expected. Mr. Edgerton is a genial old gentleman, fond of just such life as he meets with at Washington, and wants the office more for this reason than any other. When he tires of Washington life he will go home and not sooner," says the Richmond Palladium.

CHOICE BITS.

The News That is Culled for
the "Sentinel" Readers.

Goshen wants the congressional convention for the 13th district held there. Capt. John R. Smith, postmaster of Kendallville, is threatening a boycott of the News.

The shrinkage of property in Noble county as returned by the assessors at Albion last week is \$55,000. The Knights of Pythias of Huntington, will dedicate their new hall on Wednesday evening, July 7.

The result of the assessors' work in Lagrange county shows a decrease in the valuation of property of \$800,000.

Rome City's legal luminary, C. Holder, will be a candidate before the republican judicial convention to be held in Kendallville June 24.

Theodore Hoffman, at Milltown, had carried a dynamite cartridge in his vest pocket two years. Finally his curiosity to see the contents got the better of his judgment, and he picked it open with a pin, exploding the infernal machine, tearing off the middle and second fingers of one hand.

Yesterday the gymnasium and baths of the Y. M. C. A. association building, at Indianapolis, were permanently closed. This was rendered necessary by the dilapidated condition of the building. In the city of Bombay there is a Y. M. C. A. association of 500 members, with a fine building and doing a good work for the city. This is Indiana and that is India. That is the difference.

The Indiana Sunday School union will begin its twenty-second annual convention in Centenary church at New Albany on the 22d of this month, continuing three days. A reduction in railroad fare may be secured by addressing Chas. H. Connor, secretary, New Albany. Programs, certificates, etc., may be had of the secretary or of Charles D. Moiga, Indianapolis. All schools desiring to send delegates should appoint them, and the annual collection for state work should be taken up.

The Marion water works well has been threatening to dry for the past year and the people of that city became alarmed. They began a new well but abandoned it. They finally entered into a contract with some Ohio people who agreed to furnish them plenty of water for \$350. After eight days work and a depth of sixty feet, says the Chronicle, was reached, a vein of water was struck which proved a veritable gusher. The flow was interrupted and enormous.

The Fletcher & Sharpe bank building at Indianapolis was sold by the receiver this afternoon at public outcry, and was bid in by O. B. Ford on behalf of President Ingalls, of the Big Four; consideration \$55,000, the purchaser assuming \$135,000 held by the Connecticut Mutual Life Insurance company. The building was appraised in excess of \$200,000, and it is not thought the court will approve the figures at which it went to-day, although it is believed Mr. Ingalls will eventually come into its possession.

A number of the leading live stock dealers of the state met at the Grand hotel yesterday afternoon and organized the Central Live Stock insurance company, of Indiana, which proposes to insure against death by disease or accident, with the following officers: President, Hon. Clem Studabaker, South Bend; vice president, Samuel McKean, Terre Haute, treasurer, Theodore P. Haughey, Indianapolis; secretary, T. A. Floyd, Indianapolis; directors, John B. Conner, Indianapolis; Theodore P. Haughey, Indianapolis; Mr. McClellan, Laporte; W. S. Vannatta, Lafayette; G. F. Herriott, Indianapolis; L. R. Sheritt, South Bend, and Dr. A. C. Miller.

Patents were issued for Indiana, Tuesday, as follows: Lycurgus I. Boblett, Knightstown, manufacture of artificial stone and marble; Chas. G. Conn, Elkhart (3), cornet, wind instrument, truck; John A. Croesman and N. C. Buch, assignors to E. O. Atkins & Co., Indianapolis, device for sawing saw-teeth; Noah Harris, assignor of three-fourths to E. M. Fuller, O. G. Ritterskamp and R. C. Barber, Vincennes, convertible axle-lathes; Morgan Levering and E. H. Anspaugh, Columbia City, grain separator; Thomas Meyer, Logansport, assignor to himself and H. Tucker, New York, trace supporter; Homer C. and D. Miller, South Bend, manufacturing hydro-cement; Wm. M. Perkins, LaPorte, grain weighing and registering scales; Elwood C. Phillips, Richmond, assignor to A. Warren, St. Louis, and J. W. March, Cincinnati, O., fence machine.

Senator Payne's Seat Seems to Hang
Lightly on a Charge of Buckeyes
Bribery.

A Resolution to Adjourn in the
House—The Proceedings
in Full.

SENATOR PAYNE.

Ohio Republicans Trying to Oust
Him.

WASHINGTON, June 18.—The senate committee on privileges and elections had another meeting this morning to discuss the charge that Senator Payne's seat was secured by bribery, but did not decide whether or not to make an investigation. Congressmen Little and Butlerworth were present and addressed the committee in advocacy of an investigation.

Senator Everts, who is reported to be disinclined to an investigation, was not present, being out of town. Further consideration of the subject was postponed 'till next Thursday, in order to give Major Butlerworth an opportunity to make a statement.

The Ingalls resolution requesting the president to furnish information as to the appointments and removals under the civil service law, was placed before the senate.

Mr. Vance offered an amendment requesting information as to the appointments made within the scope of the civil service act between January 16, 1883, when the act passed and July 15, 1883, when it went into effect. Resolution as amended was agreed to.

The senate yesterday passed numerous bills on the calendar, among them being measures to construct roads to the national cemeteries at Knoxville and Natchez, to grant the Seal rocks to the city of San Francisco, for the transfer of the Baton Rouge barracks to the university of Louisiana, to purchase land for the Indian training school near Salem, Oregon; for a conference at Washington of delegates from the American republics, and for the appointment of an additional secretary of the treasury for one year.

HOUSE.

Belmont, from the committee on foreign affairs, reported back the consular and diplomatic appropriation bill with recommendations that certain senate amendments thereto be concurred in and others other non-concurred in. Agreed to. Also the message of the president on the subject of the inauguration of the statue of liberty enlightening the world in New York harbor. Referred to the committee on appropriations.

The Stanton debate was continued by Hepburn, of Iowa, who severely criticized Wheeler's speech upon the late secretary of war and declared he could not tamely submit to have the men who were emboldened in the hearts of their countrymen and whose memory was revered, derided by such as the gentleman from Alabama. He then yielded to Mr. Kelley, who read a letter written by Mr. Stanton to Rev. H. Dyer, November 18, 1862, and declared his single purpose to perform his whole duty to his country.

Mr. Wise, of Virginia, was sorry the gentleman from Georgia, Mr. Wheeler, had given the gentleman from Ohio a chance to fight over again the war days of 1862.

Mr. Wise earnestly endeavored to impress on the majority the propriety and necessity for the habilitation of the navy.

There is no truth in the statement that orders were given for the vigorous enforcement of the treaty of 1818, respecting fisheries.

Mr. Anderson, of Kansas, offered a resolution providing for the final ad-

journalment of congress at noon on Saturday, July 3d. Referred to the committee on ways and means.

Mr. O'Neil, from the committee on labor, reported a bill granting leaves of absence to em, loyes of the United States navy yards. To the house calendar.

He also sent in a bill amending the act prohibiting the importation of contract labor. To the house calendar.

The house went into a committee of the whole on the naval appropriation bill.

Akron Over a Lake.

ROME, June 18.—Cholera has appeared at Codigora, on the Po, eight miles from the Adriatic. At Venice, the daily average of new cases of the disease is sixteen.

A FEW POINTERS.

Judge Elliott Hands Them to
the Council in the Coombs
Damage Case.

In deciding the case of J. M. Coombs vs. the city, Judge Elliott holds: "In actions against municipal corporations for injuries resulting from the negligent construction or maintenance of sewers must show that he was free from contributory negligence. Where a municipal corporation constructs a sewer it is bound to use ordinary care and skill, and it is not necessary that it should be averred that the corporate authorities had notices or defects caused by a want of care and skill in doing the work. Where a sewer is constructed with care and skill the municipal corporation is liable for injuries for negligently failing to keep it in repair, and where it is suffered to remain out of repair for such a length of time as that it was the duty of the corporate authorities to take notice of its condition, the law will charge the corporate officers with notice. A complaint which charges that a sewer was suffered to remain out of repair for two years prior to the injury done to the plaintiff's property, such an averment is sufficient to charge the corporation with notice.

The right of the public in a street is not lost by the occupancy of the land by a canal company and the city has a right to construct a sewer under the canal. A municipal corporation which makes use of private property for the purpose of constructing a sewer and in order to obtain the privilege of using the property submits to the demand of the owner to construct the sewer according to plans and specifications prepared by him is liable for negligence in constructing or maintaining the sewer. If a municipal corporation by its system of constructing sewers renders an outlet necessary, it must provide one. A municipal corporation is liable to one, who for his private benefit, connects his premises with a sewer constructed by the corporation for injuries resulting from the negligent construction or maintenance of the sewer. It is exclusively a question for the court to determine whether a witness is qualified to testify as an expert."

Death of J. McNutt Smith.

Mr. J. McNutt Smith died this morning at 3 o'clock, at his home on Douglas avenue, after a lingering attack of consumption, aged fifty-five years. When in health Mr. Smith was an active citizen, and one who stood high among his fellow men. He was once an attaché of the postoffice, and held other responsible positions. His funeral occurs Sunday afternoon.

Election of Officers of the Senate
—A Fort Wayne Man
Honored.

MANSFIELD, O., June 18.—A three days' session of the senate of the National Union ended in this city last night with a banquet. The next senate will be held in Detroit. This order had its inception in Mansfield, and for the past five years its officers have mainly been Mansfield men. Incompetency, however, has been charged, and the following new list has been elected for the ensuing year: President, Frank Croager, of Fremont, O.; vice president, T. W. Blair, of Fort Wayne, Ind.; speaker, T. J. Charlesworth, of Detroit; secretary, J. W. Myers, of Columbus; treasurer, F. N. Coge, of Chicago; medical director, Dr. A. E. Keyes, of Mansfield; chaplain, O. D. Westmore, of Chicago; usher, H. T. Brian, of Washington; sergeant-at-arms, T. A. Ironmonger, of Greenwich, O.; doorkeeper, W. G. Sewell, of Mansfield, and Judge R. H. Cockran, of Toledo.

Stung to Death by Bees.

MUSKOGEE, Ind., June 18.—Benjamin Zehner, a wealthy and prominent citizen of this county, met with a horrible death yesterday afternoon, while living a swarm of bees. The bees covered his head and within five minutes he was dead. Zehner was a flour manufacturer and his name is known to every business man in Eastern Indiana. He was worth \$100,000, and ranked with the leading millers throughout Indiana.

INSECT KILLER.

In an extensive series of experiments by Prof. Graber, insects and many other invertebrates perceived odors much more quickly and acutely than the vertebrates tested (birds and reptiles). The antennae proved to be not the only organs of smell in insects, although these appear to be essential to the perception of some fine odors. In some cases the palpi of the mouth-organ are more sensitive than the antennae, but perception of smell through the stigmata or respiratory organs is not rapid nor important.

A NUMBER under sentence of death had a number of influential friends who were exerting themselves to secure a respite from the Governor. The Sheriff believed in capital punishment, but he was a charitably-disposed man and had been doing a good deal of running around for his doomed guest. One morning he returned from such a trip and went to the prisoner. "Well," said the man eagerly, "well, what did the Governor say?" "My dear sir, he hasn't said anything yet. He wants time to think." "Good heavens, man! This suspense is terrible," exclaimed the criminal dramatically. "Don't mention it," responded the Sheriff in a cheerful tone, "it ain't anything to what it will be if the Governor doesn't interfere."—Washington Critic.
